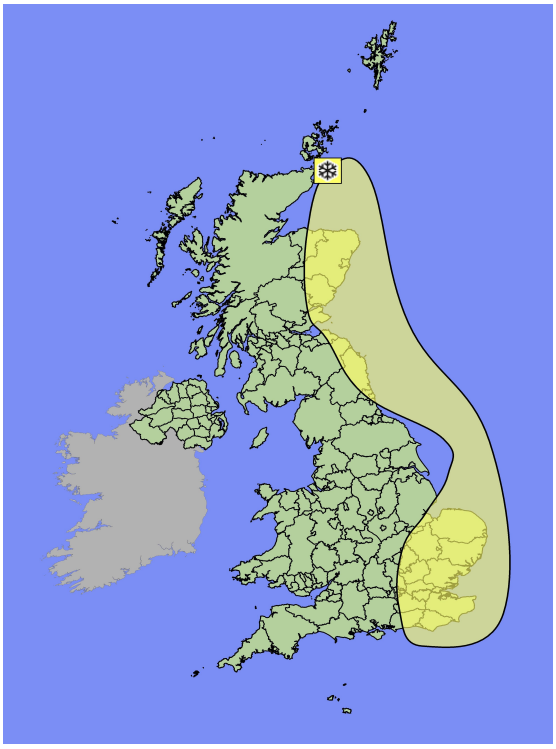
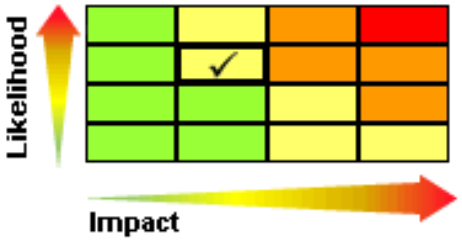
National Severe Weather Warning Service





Chief Forecasters Assessment
A retreating depression will leave wintry showers in its wake, pressure rising through the air mass over the UK remaining cold.

The Met Office have issued a **Yellow Alert** of **Snow**

Valid from **11:00 on Tue, 15th Jan 2013** until **23:55 on Tue, 15th Jan 2013**

Showery outbreaks of snow will affect parts of the east on Tuesday, in some places adding a few cm to existing accumulations. Over Scotland and northern England showers will often fall as rain near coasts. Over East Anglia and southeast England, conditions will improve markedly by afternoon. Ice will also be a hazard in these areas.

The public are advised to be aware of the risk of disruption to transport.
